

INTRODUCTION

DRISHAN INDUSTRIES was established by Mr. PRATIKSINGH GAUTAM with a vision of carrying out trading and exports of various multi-commodity products. With the passage of time DRISHAN INDUSTRIES has achieved a remarkable growth and this has helped to achieve targets well before time. We are now the market leaders in supply of various multi-commodity products.

DRISHAN INDUSTRIES provides services to almost all the countries around the globe. We take pride to introducing our self as an exporter and trader. Gujarat has 1600km coastal line including three leading ports of India kandla, mundra and pipava which gives us the efficacy to execute our export orders & serve our customers effectively & efficiently.

OUR VISION:

DRISHAN INDUSTRIES is into diversified businesses and over a period of time we have acquired a good market locally as well as internationally.

Recently DRISHAN INDUSTRIES has been allotted industrial land at SANAND GIDC, area measuring around 2200 sq. mts. We are planning to start a De-Canting plant of bitumen which will help us boost our market locally. As Ahmedabad is a hub for various construction companies and as we can see that Ahmedabad and other areas are developing day by day with construction of new roads, having a bitumen de-canting plant in periphery of Ahmedabad city is an added advantage so that road construction companies can directly load bitumen from our plant and use it at their sites.

We are planning to start a warehouse at Mundra port where we can provide services to various importers and exporters. As we have experience of exports and imports we have planned to acquire land near Mundra port and start warehouse services accordingly.

DRISHAN INDUSTRIES has a vision for next 50 years and more and we are into multi-dimensional products that gives us an upper-edge.

OUR PRODUCTS:
